CAUTION

Anyone who uses the Sega Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Sega Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast. In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Sega Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Sega Dreamcast console, especially not in a CD player.

Playing the Game

For each mission, Buzz Lightyear arrives on the surface of the planet. He must pursue a villain through challenging and dangerous terrain, fending off and destroying the legions of Zurg's troops in his path. Buzz Lightyear has to use all his Space Ranger abilities and equipment to ensure he captures the villain before the enemy escapes.

If he's fast enough, Buzz Lightyear will battle his rival in an epic showdown, using the correct weapon to destroy any shields that the enemy may have.

To aid Buzz Lightyear in his mission, numerous weapons, vehicles, and power-ups can be instantly purchased throughout the levels in exchange for credits. Credits can be found throughout the planets, and are awarded for destroying Zurg's troops.

Explosives: As if things weren't bad enough, some enemies will trigger timed explosives as they flee. The explosives must be destroyed before they explode.

Booster: At special points in the game, you can call in Booster who will perform his infamous Cannonball Maneuver to destroy all nearby enemies.

Mira: If you beat the villain to his get-away spot, Mira will help by firing a special weapon to weaken the enemy for the final battle.

Little Green Men: These are lost and scattered around some planets. Make sure you don't hit any of them, and try and rescue as many as you can by tagging them.

Medals and Bonus Levels

To progress to other missions, you must earn medals for your heroic deeds. Once you have defeated the enemy for a mission, two bonus levels become available. When you have enough medals, you will have been proven worthy to tackle more dangerous and challenging missions. Two silver medallions are worth a full gold medal.

- Capture the enemy for the Gold Medal of Galactic Valour. You need this to open the two bonus levels for a mission.
- Save all the Little Green Men for the Silver Medallion of Star Command.
- Collect enough credits for the Silver Medallion of Ranger Efficiency.

Bonus Level—Time Trial: A test of your Ranger abilities: get through the level in the fastest time possible.

- For outstanding performance within the time-limit, receive the Gold Medal of Heroic Prowess.
- An unparalleled time earns you the Lightyear-Lightning Silver Medallion.

Bonus Level—XR's Parts: XR has unfortunately been blown into little bits (again!).

Find all of his parts...

and return them to him...

before time runs out.

A number, above the remaining time at the top of the screen, will tell you how many pieces you have left to go.

- Receive the Gold Medal of Robotic Compassion for retrieving all of XR's parts before it's too late!
- Collect those parts fast enough, and the Silver Medallion of Comradeship is yours.

Buzz Lightyear's Moves

Run

Use the Directional Button to navigate Buzz Lightyear through the levels. He never gets tired. He's a Space Ranger.

Jump

Press the **A** Button to make Buzz Lightyear jump.

Grab 'N' Flip

If Buzz Lightyear runs or jumps into a ledge, he will grab it and flip himself up to safety.

Side Strafe

Pressing Left Trigger or Right Trigger will allow Buzz Lightyear to strafe sideways—ideal for precision shooting while facing the enemy. When pressed, these triggers allow Buzz Lightyear to step quickly to the left or right. If you press them while Buzz is already turning, he will do a “quick turn.” If you hold both triggers down while pressing back on the Directional Button, Buzz will walk backwards instead of turning around.

Jet Pack

When equipped, pressing the **A** Button will fire up Buzz Lightyear's jet pack. The jet pack extends his wings, allowing him to travel high over terrain as long as his fuel lasts.

Hoverboard

When equipped, Buzz Lightyear can use his hi-tech hover board to speed skillfully through a level. Take care that your fuel doesn't run out too soon!

Jet Bike

When equipped, this very fast vehicle will catch Zurg's minions in no time. Pressing the **A** Button moves you even faster, but the fuel goes quicker too!

Boostpad

If you have the spare credits, you can run over these powerful boost pads that catapult you through the air.

Teleport

Very expensive, but these move you instantly from one point in the level to another.

Space Ranger Weapons

Basic Laser

- Always available, this is your Space Ranger standard issue laser.

Additional Weaponry

Additional weaponry can be purchased for credits at various locations throughout the levels. If you pick up the weapon more than once, the weapon's power is increased and you get more ammo.

Plasma Gun

- Fires a bolt of plasma with powerful results. Excellent at close range.
- Upgrades four times, giving you multiple bullets.
